DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, drawn to a method of generating a price, classified in class 705, subclass 400.
- II. Claims ~~1~~4-52, drawn to a software architecture and a method of retrieving information, classified in class 705, subclass 400

1. The inventions are distinct, each from the other because of the following reasons:

Invention I (Claims 1-13) has separate utility such as, generating a delta price; and generating a final price using said delta price; and

Invention II (Claims 14-52) has separate utility, such as a software architecture comprising a quote processor configured to process a super-quote, wherein said super-quote is configured to cause a plurality of database accesses; and

a method for retrieving information comprising performing a plurality of queries on a database; receiving a plurality of data at a pricing engine in response to said queries; and providing at least one of said data without accessing said database.

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP§ 8 06.04, MPEP§ 808.01). In the instant case the different inventions, have different modes of operations/functions.

3. Because these inventions are distinct for the reasons given above and the

Art Unit: 3639

search required for Group I is not required for Group II or visa versa, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Kent B. Chambers on January 9, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Freda A. Nelson whose telephone number is (571) 272-7076. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Hayes can be reached on 571-272-6708. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
